

# Wildflowers & Trees of Ohio

## Summer Course 2019 (BIOL 1009C)

May 13 - June 2  
3 credits

Tues/Thurs  
10AM - 1:30PM  
(Rieveschl 411)

Saturday  
9AM - 4PM  
(UC Field Station)

**FOR THE NON-BIOLOGY MAJOR AND THE GENERAL**

## A GREAT TIME FOR SPRING WILDFLOWERS

For the non-biology major, this course provides an introduction to the diversity of the families of flowering plants, with an emphasis on plants growing wild in the Ohio/Indiana area. Students will learn the plant anatomy and terminology involved in the acquisition of plant identification skills and will learn about the ecology of plants encountered on field trips. The course will be based at the UC Center for Field Studies at Miami Whitewater rest during May. Other locations such as Shawnee Lookout, Fernald Preserve, and the Oxbow Area will also be visited.

For questions, please contact the instructor, Dr. Denis Conover: [denis.conover@uc.edu](mailto:denis.conover@uc.edu).

For non-UC students, the course cost is \$300 but does not give college credit. More information can be found on UC Center for Field Studies website or to enroll please visit: [www.uc.edu/pathways/nonmatric.html](http://www.uc.edu/pathways/nonmatric.html).
